My Life Without Me

Neverending White Lights

In days ahead we find
We're strangers passing by
Was I wrong here, I wrong here?
I wasn't strong was I, strong was I?
Hey, what went wrong there?
We held on when they let go
Tonight we crawl to everyone
To save the things we never had there
They can't save a dying light

I had blamed everything on everyone
I had prayed for everything, for everyone
And we're only only
Faces are all blind
Strangers lost in time
Was I wrong here, I wrong here?
I didn't run did I, run did I?
And we're only only
And we're only wasting (time)
