Must Have More

L7

Her mouth is calling you
His hands are empty
My brain is drying out
It was so hungryMust have more
Must have more
Must have more
Love for youMy eyes are cold and cracked
She cried a river
He pulls his hair right out
Tries to forgive herMust have more
Must have more
Must have more
Love for you
Love for youIt's in the atmosphere
You cannot hide it
So many long sharp tongues
Keep us dividedMust have more
Must have more
Must have more
Love for youHave more
Have more
Have more
Love for you
Love for you
Love for youMust have more
Love for you
