

# I Want You With Me Christmas

## Roomful of Blues

I want you with me Christmas  
When candles are aglow  
I want your love this Christmas  
The thrill, the place, the show

If you are with me Christmas  
Beneath the mistletoe  
My love my love just like the tinsel  
Will really deck the glow

We put our hearts together  
When love was very young  
Yet with each brand new season  
A brand new carol is sung

I want you with me Christmas  
That's all I really know  
I want your love this Christmas  
To keep my heart aglow
