

Helpless

Electric Light Orchestra

Helpless, helpless, helpless, helpless
I thought about it but I couldn't think of what to say
But I thought about it anyway, yeah
I tried to tell you what you mean to me
But it didn't come so easily, no
I never reckoned
For more than a second
Just how it would be on my own
I'd be helpless, without you
I'd be helpless, without you
The dawn that calls beyond the night
Tells its old story
The shadows fade into the light
In all its glory
Helpless
Helpless, baby, I'm a helpless
Helpless, baby
I'm a helpless
If I could put a good shine on the past
Do you think that we could make it last, oh yeah
Seems to me the time goes fast
I wonder if the vote is cast
Now that you mention it
Got my attention
I quite clearly blew me away
I'd be helpless, without you
I'd be helpless, without you
The dawn that calls beyond the night
Tells its old story
The shadows fade into the light
In all its glory
Helpless
Helpless, baby, I'm a helpless
Helpless, baby
I'm a helpless, without you
I'd be helpless, without you
Helpless, helpless, helpless, helpless
