

How Lucky We Are

Meiko

One day we'll get out of this shitty apartment

One day, all it takes for things to turn around

All I know is I got you and you got me babe
And when that morning comes, I'll make coffee and you read the
paper

we'll talk about our plans and I'll keep saying how lucky we are
One day, we'll get in the car and drive
anywhere we wanna go, then we'll stay in a five star mini bar, luxury hotel room cause all i know is i got you
and you got me babe
and when that morning comes i'll make coffee and you'll read the paper

we'll talk about our plans and how lucky we are
one day, we'll turn on the tv and we wont see nothing about
war
and when that morning comes, i'll make coffee and you'll read the paper, we'll talk about our plans and i'll
keep saying how lucky we are
