Love (feat. Parker McCollum)

Koe Wetzel

To say I've been missing you,
Is the worst thing possible that I could ever do
And to sleep one more time next to you,
Should be out of the question don't ask me no question like
If I love you because I don't.

I don't love you
The selfish don't love nobody
And I can't love you like you should be loved To say I have been missing you,
Is the worst thing possible I could ever do.
And to sleep one more night next to you
Should be out of the question
Don't ask me no question like
If I love you because I Don't
I don't love you, selfish don't love nobody
I can't love you like you should be loved.
I don't love you, selfish don't love nobody

Don't talk crazy and killing your self won't change a Gosh Dang thing.
If it's help that you need, I know a place down the street.
And the storm is moving in, it's been raining for five full days.
And I know now is not the best time but I just got to say, I don't I don't I don't love you
Selfish don't love nobody
I can't love you, like you should be loved.

(Parker McCollum)
Was it an accident???
When a broken heart and a bullet(Koe Wetzel)
Selfish don't love nobody
And I can't love you
Like you should be loved
I don't love you, selfish don't love nobody
