Big Black Car

Admiral Twin

We met on Easter, I remember
She looked me right in the eye
and pulled the trigger
â€˜cause Iâ€™d been a bad boy
Hallelujah
I broke a lot of pretty things
But thatâ€™s all over

All I had was a moment
A flicker in the flame
A glimmer through a black veil
I never even caught her name
Oh no

Yeah, Iâ€™ve got a fever... but I like it
Iâ€™m gonna burn up inside
and start all over
Then I want to take her to a movie
So we can make a little scene
And when the lights come back up
Weâ€™ll be a million stars above this dream
And sheâ€™ll surrender

â€˜cause I could make her happy
I could fan the flames
She struck me down like a matchbook
I never even caught her name

Hey... look at me
A little screwed up
but Iâ€™m not that crazy
Oh, we could be beautiful
Iâ€™m all out of life, give me a spark
â€˜cause everythingâ€™s dark back here
In this big black car
Here in this big black car

I need a white light now
I see a big voice
I feel it all

I feel it all...

Hey... look at me
A little screwed up
but Iâ€™m not that crazy
Oh, we could be beautiful
Iâ€™m all out of life, give me a spark
â€˜cause everythingâ€™s dark back here
In this big black car
Iâ€™ve gotta get out of here
