Films

Gary Numan

I don't like the film
I don't like the film
So play it all back
Play it all backAnd I don't like the scenery
And I don't like the set so
Pull it all down
Pull it all downBut I like the actors
And I like the showWe're so exposed
We're so exposed
Anything can happen
Anything can happen
Anything can happenDon't let them see
Don't let them know
And you wonder why
And you wonder why
And turn off the sound
