Good Looks

Girlyboi

cant get by on your good looks alone
but its good living till the looks long, gone
its good living for a while
until your looks go out of style

cause you don't work a job
and you don't wash your head
all the people passing by stop in their tracks
and said
youre beautiful you see
seen you in Idea
and they call in the cat walk
when your walking down the streets

Cant get by on just your, charm
forever
cant get by on those dumb jokes
yeah, even though their clever
cant get by, no, no
theres a change in the weather
cant get by on this thing
forever, forever ever

you might work a job
and you might use your hands
and you might have to wash the dishes
clean the pots and pans
but it aint all that bad
at least not that bad for me
cause I got you right by my side and thats all I need to see

forget the photos in the mags
and the dumb designer rags
that don't impress me

yea, I got a girl thats pretty cool
and at home she makes the rules
and I think thats sexy

fuck the photos in the mags

and your reflected silver drags
that dont impress me

the only reason that I exist
is that this girl could flick a wrist
and that she could wreck me
