

# Grandma

Gretchen Wilson

Grandma's turning 92  
That's a lot of years ahead of you  
So, listen close to what I say  
'Cause Grandma's feeling old today  
She said I can't believe I'm sitting here  
As old as I am  
Never been stoned I've waited too damn long  
So, bring it on  
Grandma's gonna fly So, I rolled it up and passed it around  
Grandma smoked the whole thing down  
She was making up for wasted ground  
Too many times she turned it down  
She said You live your life until it's gone  
And the things you never try just slip away  
Until they're gone, too I've waited too damn long  
So, bring it on  
Grandma's gonna fly And as we talked about the old days  
She said some things that blew my mind  
She said You ain't seen a thing  
Until you've seen Grandma getting high Now, Grandma didn't have much time left  
But she made use of every breath  
I swear she smiled before she left  
And I watched the world fall off her chest  
And as the gates of heaven of heaven opened wide  
She slipped over to the other side  
She was singin', yeah
