

# We're No Good

## Young Galaxy

I finally see what you're looking for  
A little piece of me to take away for free  
You probably won't be coming back for more  
There's nothing I can do, floating away from you We're no good, we're no good  
We're no good, we're no good I didn't let you down  
I let you drop me instead  
You didn't let me down  
You just put thoughts in my head  
I didn't let you down  
I let you drop me instead  
You didn't let me down  
You just put thoughts in my head  
I can't imagine walking out the door  
I'll take my things with me  
You keep your sympathy  
I'm so tired of this cold cold war  
There's nothing left to do, we never will break through We're no good, we're no good  
We're no good, we're no good  
I didn't let you down  
I let you drop me instead  
You didn't let me down  
You just put thoughts in my head  
I didn't let you down  
I let you drop me instead  
You didn't let me down  
You just put thoughts in my head
