

Blood

ARI

I'm at the same rock bottom
I'd like to say I've never been here before
I'm always cut short on the dedication- no inspiration to put this down
Give me some patience, I just need some patience to get up and get out
They say it's all in the blood,
Well I can say I'm not the same as I once was (x2)
It's crawling under my skin (x3)
Give me a reason- just give
me a reason,
to pull myself back together (x2)
I've put this off for way too long
And all the while,
I say I'll change
But when do my words ever mean anything?
The guilt to live- it sets in
I'll never be the same
I'll take what I can
To build not to blame
Blood don't change a man,
Unless the blood is on his hands
Won't give up the fight,
Unless the bottom half's full of sand
