Father Forgive Them

Impellitteri

Father forgive them, they know not what they do
Dancing with the devil, gonna walk all over you
Turn your back to reason, sanding on your pride
For everything's a season and there's no where you can hideI don't know, I don't know where you're going
But time is so tightMother teach your children, your innocence won't last
Face the grand illusion, you hide behind the mask
Looking out for number one, you're running with the pack
You're living for the moment, the day is coming fastFather forgive them, they know not what they do
They're taking their chances and playing with you
Over and over they don't count the cost
Sin after sin, nailed to the crossFather forgive them, they know not what they do
They're taking their chances and playing with you
Over and over they don't count the cost
Sin after sin, nailed to the cross
