Destroy the Man

Refused

Out of the dirt and up on our legs
We used to crawl but that's hardly changed
Raped our sisters
Had our way with them
Ruled that we should rule
Called ourselves menInvented poetry
Impaired it with fame
Killed the poet to usurp his name
Distorted philosophy to further war
Man's greatest feat would enslave us allOh, how we love the shackles when we control the chainsDestroy the man
Death to death
Destroy the man
Death to deathDestroy the man
Death to deathDestroy the man
Death to deathConceived the structures
Made up the rules
To our benefit we defined the tools
Worshipped ourselves and our own kind
Molded history in our designLet's destroy his story too
Let's destroy and start something newDestroy the man
Death to death
Destroy the man
Death to death
Destroy the man
Death to death
Destroy the man
Death to death
