

Fell In Love Without You (Acoustic)

Motion City Soundtrack

 Last night I fell in love without you
 I waved goodbye to that heart of mine
Eating solo on your lawnEvery aching wound will cauterize and bruise
 In memory of what we used to call in love
 And only time will tell if violins will swell
 In memory of what we used to call in love
Used to call it loveLast night I fell in love without you
 The cou de gras that set me off
Would've made for decent fictionEvery aching wound will cauterize and bruise
 In memory of what we used to call in love
 And only time will tell if violins will swell
 In memory of what we used to call in love
Used to call itLast night I fell in love without you
 The stars at night aren't as big and bright
As you make them out to beAnd every aching wound will cauterize and bruise
 In memory of what we used to call in love
 And only time will tell if violins will swell
 In memory of what we used to call in love
 In memory of when we used to call it love
