# Zylophone

## Wild Moccasins

you and i Disagree
if xylophone starts with z
but i do so kindly
while turning eyes so blindly
you know I won't admit
pluto isn't a planet
but tell me why oh why
not seeing eye to eye on

every anything does not mean
you can call me any and everything in between

not like I could have planned it
rather than stand up you stand it
maybe it's how you sweat
not what that erases duets
so much more than a bother
you more than look like your father
but you can't tie your tie
or tell me why oh why

oh tell me why oh why?

you can't tell me why oh why
