

# Diamonds in the Dark

## Erok

### VERSE 1

you shine brighter than diamonds in the dark  
you take me higher than the moon among the stars  
i wanna take you there. close your eyes  
nobody else, just you and i baby  
i swear it's impossible for it to feel this good  
even though you told me that it would  
every time baby  
every time baby  
every time baby

### CHORUS:

tell me where you wanna take it next tonight  
i promise i'll hit your spot  
it's so easy baby  
like finding diamonds in the dark  
you told me me that you wanted something different babe  
so let me take control  
you're gonna feel me baby  
just promise you won't let go  
cuz we ain't finished baby  
this is just the start  
i knew you wouldn't expect it  
i won't neglect ya

### like finding diamonds in the dark

VERSE 2:  
now lemme slow it down ya one time  
bring the tempo down to help you unwind  
make no mistake, we gonna reach the top  
just hit the brakes, if you want me to stop  
but i gotta feeling that we won't slow down  
i'm already planning for another round  
every time baby  
every time baby

### every time

CHORUS REPEAT  
BRIDGE  
it took so long to figure out  
that all you have to do is turn the lights off  
and let your beauty shine through  
it took so long to figure out  
that all you have to do is turn the lights off  
and find the diamonds in the dark

### CHORUS REPEAT
