

Begin Again

Purity Ring

Begin again
Begin again
Begin again

I've been watching your kindness keep
A lonely company
Look at the fire and think of me
I've been watching you creep
Around my wandering feet
Trying for years to flee

I need not one thing more
O wrap the ground around
Your gentle winding mind
O guard the pounding sound
Breathe in your fiery air
O wrap the ground around
Give back an hungrier stare
O guard the pounding sound

You be the moon I'll be the earth
And when we burst
Star over o darling
Begin again
Begin again
Begin again

My moon o my moon
Not even into
Another eternity
Will you stop your lovely orbiting
I had held it a world away
Until my body 'gan to say
