I Could Stay Here Forever

Frank Black

See the scheming behemoth
Licking salt in their cave
Being together is their zenith
It's how they behaveNow we're hangin' in tandem
Six trillion miles a year
How can direction be random?
When you're so nearI could stay here forever
I could stay here forever
And I'm never bored with this all aboard
And I could stay here foreverWe got some bills to pay
And when we pay them off
Maybe we'll get away
But if not, so what?I could stay here forever
I could stay here forever
We all can speak to anybody
It's all in your headI could stay here forever
I could stay here forever
And I'm never bored with this all aboard
I could stay here forever
I could stay here forever
And I'm never bored with this all aboard
I could stay here forever
