

Colors of You (feat. Mike Posner)

Talib Kweli

(Intro)

Yea, been around the world made time

See many things

And in color too

I seen women so beautiful

That I could die with a smile on my face

And I'll feel like the good Lord in me This phase between love and hate (Verse)

How you expect to have an ordinary relationship

With such an extraordinary nigga, yea this flow's ain't what you figured

Ain't the liquor that got yo considering, calling up the sitter

Telling her you need a couple hours and before you tip er

I like my fantasies, how she trip a half glass slipper

Wrapping one like a riddle with enigma

Character in my flipper

Coming to life when I'm flippin through the pictures

Switchin up the positions, my karma karma chameleon

Change colors with the surroundings

I can hear you with my eyes and I'm loving the way you sounding

I'm smothering and I'm grinding out that is cat and meow

Loving in public when we coming in

Up against the cup until we... right on the couch

(Yellow on a bad day)

Knocking it out without a doubt (Chorus)

Colors of you

Ayo the world is a coloring book

Look, new discoveries every time when I color outside the lines

Colors of you

Ayo the world is a coloring book

New discoveries every time when I color outside the lines

Color of you, yea (Verse)

My self-expression require every color in the spectrum

My self-reflection make the light change direction

When you see it from this angle, the color that cut the clarity

Stars bringing me down, it's the depravity and gravity

Having me in my blue phase, go off the grid for a few days

Go on a journey without a suitcase

The security of obscurity

In a world of respect and I'm trading it like it's currency

Currently it's soft as a mallet hitting the xylophone

He's so yellow, I'm wishing this fellow right his wrong
Now in steady it's synthetic and Styrofoam
Recite a poem, some monotone that ain't monochrome
My light will poke through the clouds, I'll take you higher like you smoking the loud
While I provide at your kaleidoscope of sound
You can see it with your ears, you can hear with your eyes
You can feel it right here yea(Chorus)
Colors of you
You don't look like turquoise
You don't look like gold
You don't look like purple
That'll match on you
Ayo the world is a coloring book
Look, new discoveries every time when I color outside the lines
Colors of you
Ayo the world is a coloring book
New discoveries every time when I color outside the lines
Colors of youColors of you...
