

Dayglow Vista Rd.

Minus The Bear

Walkin' down Dayglow Vista Rd.
Takin' a break to read the stone
Sunken graves seem to say, "We're not here anymore"
It's like they never been here before
And everybody's got a shine on
Walkin' down Dayglow Vista Rd.
And everybody's got a high on
Down by the old path ghost
You look so sweet, so sweet, so sweet
The sunlight filtered down on me
I'm under your thumb, I'm under your thumb
I don't wanna get stuck when the storm comes
And everybody's got a shine on
Walkin' down Dayglow Vista Rd.
And everybody's got a high on

Down by the old path ghost
What's a little bit of rain?
As we walk on, it comes on night
And the pathway fades away
Lost in the forest graveyard
And we're trippin' the night away
And everybody's got a shine on
Walkin' down Dayglow Vista Rd.
And everybody's got a high on
Walkin' down Dayglow Vista Rd.
And everybody's got a shine on
Down by the, down by the
Down by the, down by the
Everybody's got a shine on
