Wrecking Crew

Overkill

Ain't no job too big or small just one sweep of the wrecking ball
Put 'em up, we'll knock 'em down or knock 'em up, then leave town
Demolition of the mind desolation, left behind
Light the fuse, dynamite light the sky in the nightWe will walk all over you 'cause we are
The wrecking, wrecking crew
We are the wrecking crew, wrecking crew
We are the wrecking crewDestruction is a way life destruction, mayhem, havoc, strife
Crack a smile, here the sound watch 'em crumble to the ground
Innocence ain't no excuse slip your neck inside the noose
Pay in blood I demand the wrecking crew is outta handWe will walk all over you 'cause we are
The wrecking, wrecking crew
We are the wrecking crew, we'll wreck your neck
Wrecking crew, get wreckedTurn to ashes, turn to dust we're the ones that you can trust
Evil smile, wicked grin tear it down, begin to sin
Think that you will end it all there's no one left to ball or call
When there ain't nothin' left to do call upon, the wrecking crewWe will walk all over you 'cause we are
The wrecking, wrecking crew, we are the wrecking crew
We'll wreck your neck, wrecking crew
Ya wreck, ah, wrecking crew
Wreck! Wreck
