Of Sephirotic Transformation and Carnality

Behemoth

Madness creeps through arteries of Grand Cosmic Body
Higher and lover, towards all directions
It violates old laws, repeals all orders
And seeks infinity in holy lettersChild in crown its guide - Ever Coming Son
But it rambles suspended between emanations of Increasing and Descending
Thousand paths across thousand spheres
Mind is torn apart by Macrocosmic Snowflake
Death!Prismatic trees grow from mad rites
The knowledge of geometry elevated to the dignity of living substance
The Fool in the Universe knows nothing as usual
Transubstantiation of excrement and Styx waters is done!Carnal alchemy
Sephirotic transformation
In new body god incarnates
