

More and More

Lilja Bloom

Take me down the floor
baby show me how it goes
...the city lights
drive me all through the night
drinking whiskey and champagne
there's no way
and no want it to blame it gets More and more
deep and deeper
more and more
deep and deeper
more and more
deep and deeper
more and more deep and deeper
and when the sun is down again
the... play again
show me what you've got
baby show me what you think and when the sun is down again
the... play again
show me what you've got
baby tell me what you think It gets More and more
deep and deeper
more and more
deep and deeper
more and more
deep and deeper
more and more deep and deeper
and when the sun is down again
the... play again
show me what you've got
baby tell me what you think
