High Road

Tommy Saint

Everybody's saying they want the easy way out.
Everybody's saying they want the handout.
I guess we don't have the patience to make this life a better place.
What happened to inspiration? Maybe we're just too afraid, but not me.
I will live my life, every single thing I do,
I will give my life, I owe it all to You!
And I will not be afraid, and that's not easy!
i know that You're there for me when I say...

I choose the high road (the one less traveled) -2x

At times when things don't go, go the way we planned,
and we find ourselves questioning what we don't understand,
And I guess we don't have the patience to make this life a better place.
What happened to inspiration? Maybe we're just too afraid, but not me.
I will live my life, every single I do,
I will give my life, i owe it all to You!
And I will not be afraid, and that's not easy!
I know that You're there for me when I say...

I choose the high road, yeah, (the one less traveled) - 2x

Storms may come, winds may blow.
I will stay, I choose the high road.
Wars have aged, and tears have flown.
but You're always there for me!
i choose the high road!

I choose the high road, yeah!
I choose the high road!
(the one less traveled)
I choose the high road,
I choose the high road!
(choose the high road, high road)
