

# Shutdown

## Ash

Turn everything off, the moving parts come to a halt  
I leave the work I've done and walk away  
Conditions have been balanced in your favor far too long  
It's time for you to hear the words I say  
Shutdown, the system isn't right  
Slow down, there's gonna be a fight  
Shut it down  
Thank you and good night  
Once there was a time when I would listen to your lies  
But now I recognize what's going on  
Never been to fight and now you need me on your side  
Only realized now it's gone  
Shutdown, the system isn't right  
Slow down, there's gonna be a fight  
Shut it down  
Thank you and good night  
Shutdown, put the system right  
Slow down, there's gonna be a fight  
Shut it down  
Thank you and good night  
Shut it down  
Thank you and good night
