

# The Worst Idea

## The Get Up Kids

I'll go with the worst idea  
If everyone takes the toll  
Keep followin' anyone  
Who digs a deeper holeSing me a tune  
Wasn't this bond built forever?  
The anchor that strongMy money, it changes  
How we used to value most  
So over the shorter scent  
That comes at any costSing me a tune  
Wasn't this bond built forever?  
The anchor that strongDidn't we build this together?  
The worst just go wrong  
The worst just go wrongOn and on, how do you win so many enemies?  
I'm open to any good news  
What if the world falls in?  
I'm the only option we knewSing me a tune  
Wasn't this bond built forever?  
The anchor that strongDidn't we build this together?  
The worst just go wrongI'll go with the worst idea  
If everyone takes the toll  
My money, it changes how we used to value most  
So over the shorter scent that comes at any costSing me a tune  
Wasn't this bond built forever?  
The anchor that strong, the anchor that strongI'll go with the worst idea  
If everyone takes the toll  
(Way too long)  
I'll go with the worst idea  
If everyone takes the toll
