

Stranger (with KillaGraham & Sam Dew)

[Skrillex](#)

Here in the dark I can see where you are

I see so clearly

The beat of my heart just stops and starts

Whenever you're near me

I just gotta thank you, all the love I gave you

Came and you took it all away

And now there is no pain, there's everything to gain here

Now that I'm lost I think I'll stay In hell, there's comfort in these flames and I don't feel the pain

In hell, I'll forget your name here, you'll become a stranger (Become a stranger) I'll forget your name here,
you'll become a stranger (You'll become a stranger) I'll forget your name here, you'll become a stranger (You'll

become a stranger) Here in the dark I can see where you are

I see so clearly

The beat of my heart just stops and starts

Whenever you're near me

I just gotta thank you, all the love I gave you

Came and you took it all away

And now there is no pain, there's everything to gain here

Now that I'm lost I think I'll stay (Stranger) In hell, there's comfort in these flames and I don't feel the pain

In hell, I'll forget your name here, you'll become a stranger In hell, there's comfort in these flames and I don't
feel the pain

In hell, I'll forget your name here, you'll become a stranger (Become a stranger)
