# Summer

## Charlotte Hatherley

Summer is coming
And I hope I feel better by the time it does
Then I could leave my room my cocoon
Find the door and walk out to the sun ohFeel like I've moved on
Lessons learnt my mind is feeling calm and so reassured
Yeah things are on the up
I'm on top of the situation I've endured ohTook my time to come around
From the day that I was shot down
Oh now I know thatI confused myself with somebody else
I didn't know what to do, 'cause I was somebody new
Oh now I know that
I confused myself with somebody else
I didn't know what to do, know what to doA silhouette in the shadows
I drank too much and darkness settled in and drew in me
And oh my bleedin' heart did start to repair
And I could clearly see ohOpen the windows
Serotonin and the vitamins C, D and E
Oh let it all sink in to your skin close your eyes
And you can feel the release ohTook my time to come around
From the day that I was shot down
Oh now I know thatI confused myself with somebody else
I didn't know what to do, 'cause I was somebody new
Oh now I know that
I confused myself with somebody else
I didn't know what to do, know what to doSummer is coming
And I hope, I feel better by the time it does
Then I could leave my room
And walk out to the sun ohI confused myself with somebody else
I didn't know what to do, 'cause I was somebody new
Oh now I know that
I confused myself with somebody else
I didn't know what to do, 'cause I was somebody new
I didn't know what to do, no what to doTried so many ways to come through for you
Tried to get it right and really improve
And yeah I really wanted toTook my time to come around
Breathing in and breathing out
Oh won't you see what I can do?
Oh when I leave my room?
