

# The Light in Me

Jackie Venson

Won't you come over here  
And tell me why you love me so  
I'd love to hear the story dear  
Of how you came to know That dim was the light that shined on me  
Trying to be something I couldn't be  
When the path is dark you're the only one to see  
The light in me  
The light in me My father always cared for me  
And my mother loves me so  
But your love it scares me, it scares me  
Cos it's something I've never known Wandering around without a clue  
Makes it easy to fear what's new  
When the path is dark you're the only one to see  
The light in me  
The light in me So now I'll tell the story dear  
Of how love can prevail  
This world can be so gloomy dear  
And it sets us up to fail Then I said  
Dim is the light that guides me  
And I'm trying to set my spirit free  
When the time is right my love's ever changing like the sea  
Forever free  
The light in me  
Forever free  
The light in me
