

Things Like This Help Me

Starflyer 59

Come out in clothes you like
And tell me of all of the bands you fight
And if you look around
You stay up late when you fix all the sounds
Come out and pick a night
A night when you lose your life
Because I look around
I'll stay up late when you fix all the sounds
These are good times
Things like this help me
Through all of the long, long nights
These are good times
Things like this help me
Come out in clothes you like
And tell me of all of the bands you fight
And if you look around
You stay up late when you fix all the sounds
These are good times
Things like this help me
Through all of the long, long nights
These are good times
Things like this help me
These are good times
Things like this help me
Through all of the long, long nights
These are good times
Things like this help me
Things like this help me
Things like this help me
