

# Boomtown (feat. Hayden Panettiere & Will Chase)

## Nashville Cast

Juliette:

Sometimes Love is a penny on the ground and you like the way it shines.  
You feel a little lucky so you take a chance 'cause it felt like the perfect time.

You dig down deep and give it everything. Will:

Steel on steel we built this town with two young hearts on fire.

The whole world never seen a rush like this since 1845

Lord knows we found enough to go around Chorus Both:

Till that dirt runs out of gold

And the diamonds turn back to coal

So much water till the well runs out

Our hearts start to rush

and the love don't polish up

You're right, love, it always comes back down

Some Time

This love is a boom town (Love is a boomtown)

Yeah love is a boom town (Love is a boomtown) Juliette:

We go all in and ride that rush straight to California

Take that train till the tracks run out

'cause no one dares to warn you

when you play that game till it's too late Chorus Both:

Till that dirt runs out of gold

And the diamonds turn back to coal

So much water till the well runs out

Our hearts start to rush

and the love don't polish up

You're right, love, it always comes back down
