

Bliss Quest

TTNG

just as all bodies of mass
will always long for the earth's touch
i
will always feel lonely
without cause
pulled by a biological force stress reflex
darwinist twist
yourself out of
this bliss quest complex being aware i'm the chemistry set
does not protect me from my fall
i can't control or fail
all of this cortisol cocktail
from taking its toll
headless hedonist
take your effective sedative
sipped straight from this drink
send to sleep the old instinct to think
