Out of Control (State of Emotion)

Kenna

All this pressure building up
And there's a chance it's gonna explode
And I can't promise how when or whether
But I can tell you it'll happen for sureIt's a crazy world that's spinning fast
Round and round and round we go
Just keep your eyes on me now, love
Never stay, never let go, noShit is out of control
It's out of control
And I don't care what is happeningNo getting frustrated
I wanna be sedated
So I don't care, love, come with meYeah, it's doing my head in
You're doing my head in
And I can't change the state of emotionBang bang boom, energy's in the air
And the universe is speaking to me
And it's telling me, telling you to get closer
Love, lay it on meIt's the same old feeling
That I've been holding in
It's a feeling that's gotta hold
I need your love, anarchy
So let me in and never let go, noShit is out of control
It's out of control
And I don't care what is happeningNo getting frustrated
I wanna be sedated
So I don't care, love, come with meYeah, it's doing my head in
You're doing my head in
And I can't change the state of emotionIt's insane how it feels
It's insane how this feels
And I'm in and out of
And I'm losing my mindIt's insane how it feels
It's insane how it feels
And I'm feeling pressure
And it's building up insideIt's insane how it feels
It's insane how it feels
And I'm losing my head
Yeah, I'm losing my mindIt's insane how it feels
It's insane how it feels
And I feel the pressure
And it's ready to blowShit is out of control
It's out of control

And I don't care what is happeningNo getting frustrated
I wanna be sedated
So I don't care, love, come with meYeah, it's doing my head in
You're doing my head in
And I can't change, heyShit is out of control
Shit's out of control
I don't care what is happeningShit is out of control
It's out of control
I don't care what is happeningShit is out of control
Out of control
