Charge Into the Sun

The Briggs

Can peace keep this from happening?
Waging fear we cant forget
A disease, his words are spreading it
There is no need to argue
Now just do what he saysYou must learn to trust no one
Smile as we charge into the sun
And when its over we can say
I saw it on TVThe need, no theres no stopping it
And you wont believe your eyes this time
The last message we tried to send
Fell into the wrong hands again
Remember they can make up anythingYou must learn to trust no one
Smile as we charge into the sun
And when its over we can say
I saw it on TVLet the truth unfold
Were waiting for an answer
This silence is our hymn
Our fists are raised and its time
To take back what is mineYou must learn to trust no one
Smile as we charge into the sun
And when its over we can say
I saw it on TV, yeahYou must learn to trust no one
Smile as we charge into the sun
And when its over we can say
I saw it on TV, yeah
