

# Sunshine In The Shade

## The Fixx

Sunshine warming the small of my back  
Whatever virtues I lack  
You can't see 'til I move  
'Til I move in the shade  
Sunshine in the shade  
Sunshine in the shade  
But then inside, sometimes I feel so cold  
Catching these self thrown blows  
But enough of the future I see  
A shadow belonging to me  
Sunshine in the shade  
Sunshine in the shade  
Every man climbs a mountain  
With the hope to make a stand  
Every man makes a mountain  
Of his life, a master plan  
Light in the dark  
Light in the dark  
Gives me hope  
Sunshine in the shade  
Sunshine in the shade  
Sunshine in the shade  
The shade of life  
Gives me hope  
Some time and place
