Trying to Put Your Heart Back Together

Slow Runner

Watch the snow fall, make some phone calls
Spend your whole life trying to put your heart back...
Trying to put your heart back together.
Trying to put your heart back...You go out dancing,
with the beautiful and handsome
Spend the whole night trying to put your heart back,
Trying to put your heart back together
Trying to put your heart back...Where'd the day go?
Out the window...
Through the meadow,
down a wormhole.
Each day you draw a new line,
This is the last time-
this is the last time.Trying to put your heart back,
Trying to put your heart back together.
Trying to put your heart back,
Trying to put your heart back together.
Trying to put your heart back together,
Trying to put your heart back.
