# Do You Believe? (In Ghosts)

## A Dream Too Late

Stand up, I just saw you
Like a shadow in the distance
Cautiously I slowly start to breathe
Slowly taste you in the airYou're just a ghost
Invisible
You're just a ghostStand up, because I'm not alone here
I can feel you floating through me
Should this be a new disease of me
Planning intoxication?Cautiously I start to lose my feet
As you're breathing down my neckYou're just a ghost
Invisible
You're just a ghostI feel lost, when you're here
So surprising, how did you find me?
And all I want is the truthYou're just a ghost
Invisible
You're just a ghostI feel lost, when you're here
So surprising, how did you find me?
And all I want is the truthBut you're just a ghost
But you're just a ghost
Yeah, you're just a ghost
