

# Break My Fall

## Lana Del Rey

The greatest night in history  
Baby its not you, its me  
What you think Im done, done babydoll  
Im big enough and bad enough  
And I can tell when things get rough  
Now nothing that you say can break my fallOh-oh-oh-oh  
Stop right there  
Oh-oh-oh-oh  
If you really care  
Dont go and blow it all, its bad enough baby  
I dont wanna hear you saying its not you, its me  
If theres blood on my hands, you just let me know  
If youre gone with a dance, you should let me go  
Oh, baby you said it all,  
Theres nothing you can say to break my fallGreatest lie in history,  
Baby its not you, its me  
Do you really think Ill buy, youll push it all  
Oh-oh-oh-oh  
Give a girl her self respect  
You havent gone and hurt me yet  
But you know that Ill crumble if you callOh-oh-oh-oh  
Stop right there  
Oh-oh-oh-oh  
If you really careDont go and blow it all, its bad enough baby  
I dont wanna hear you saying its not you, its me  
If theres blood on my hands, you just let me know  
If youre gone with a dance, you should let me go  
Oh, baby you said it all,  
Theres nothing you can say to break my fallBreak my fallIm not gonna let you become a martyr  
Im not gonna let you pickup the gun  
Im gonna make this, a whole lot harder  
Wont make it easy for you to run  
Im not gonna let you become a martyr  
Im not gonna let you ickup the gun  
Im gonna make this, a whole lot harder  
Wont make it easy for you to runDont go and blow it all, its bad enough baby  
I dont wanna hear you saying its not you, its me  
If theres blood on my hands, you just let me know  
If youre gone with a dance, you should let me go

Oh, baby you said it all,  
Theres nothing you can say to break my fallDont go and blow it all, its bad enough baby  
I dont wanna hear you saying its not you, its me  
If theres good in my hands, you just let me know  
If youre gone with a dance, you should let me go  
Oh, baby you said it all,  
Theres nothing you can say to break my fall
