Back of the Van

Ladyhawke

In the dark, in the back of the van cautiously holding your hand
Making eyes, making everything alright
Being home, being all alone, feeling sad watching the phone
Singing out, singing everything's alright'Cause you set me on, you set me on, you set me on fire
You set me on, you set me on, you set me on fireIn the dark, in the back of the van cautiously holding your hand
Making eyes, making everything alright
When I'm out, when I'm far away wanting you, wanting to stay
Singing out, singing everything's alright'Cause you set me on, you set me on, you set me on fire
You set me on, you set me on, you set me on fire
You set me on, you set me on, you set me on fire
You set me on, you set me on, you set me on fireWhen I wake and I'm far away, I know that you're leaving
In the dark when I'm all alone, I'm scared that you're leaving
When I wake and I'm far away, I know that you're leaving
In the dark when I'm all alone, I'm scared that you're leaving'Cause you set me on, you set me on, you set me on fire
You set me on, you set me on, you set me on fire
You set me on, you set me on, you set me on fire
You set me on, you set me on, you set me on fire
You set me on, you set me on, you set me on fire
You set me on, you set me on, you set me on fire
