Goodbye

Kemopetrol

You can call me anything
Now that we are even
And it's oh so quiet
Quiet as if the both of us were afraid to say
The only thing there is to say
It'll be tomorrow if not today

But still I see you the way I used to
Beautiful, impossible
You had my heart removed by laser
All these feelings wrap their arms 'round me

You can tell me anything
Now that it is over
And we can laugh about it
And we laugh about all the fun
We laugh about everyone
We laugh about all the things unsaid, undone

But still I see you the way I used to
Beautiful, impossible
You had my heart removed by laser
All these feelings wrap their arms 'round me
