Space Cadet

The Technicolors

This place is gonna drag me down
I can't remember where I'm supposed to go
You think you got me figured out
So light me up my luminal
Watch me glow
And I know I don't belong
I knew it all along
Cuz I'm just a space cadet
With nowhere to lay my head
And after all I can't know nothing at all
Cuz I'm just a space cadet
With no one to make my bed
So reel me in
But don't send me off

This place is gonna drag me down
I can't remember where I was meant to roam
Yeah, you left me in the list and found
Fragile as a china doll
Don't you know

I know I don't belong
I knew it all along
Cuz I'm just a space cadet
With nowhere to lay my head
And after all I can't know anything at all
Cuz I'm just a space cadet
With no one to make my bed
So reel me in but don't send me off
No don't send me off

I can't remember who's to blame
I can't remember nothing at all, no
But I know I don't belong
I knew it all along
Cuz I'm just a space cadet
With nowhere to lay my head
So write me off cuz
I don't know anything at all

Yeah I'm just a space cadet
With no one to make my bed
So reel me in
And just send me off
Yeah, just send me off
Yeah, just send me off
