Hands In The Garden

Half Moon Run

I know that the night
Brings you down on your own knife
But its alright
Darling its no crimeAnd better yourself
Know that got lost thou shalt
But its all good
Darling there's no crimeI never thought that I could be so happy
I'm working on it from the inside out
Given the right circumstances
It could be safe to say
That you're so misunderstood
Darling there's no crimeBut you got it in your head
That the best is behind of you
Darling that's not rightI never thought I could be so happy
I'm working on it from the inside out
Given the right circumstances
It could be safe to say
That darling there's crimeHands in the garden
That's where to be
Cause we'll all come around
To my country house
With your hands in the garden
That's were to be
Cause we can all be ourselves
In that country houseI never thought I could be so happy
I'm working on it from the inside out
Given the right circumstances
It could be safe to say
That darling there's no crime
