

Who'll Pay the Bills?

Field Music

If it's easier to run
Than working every day
Working every day
Then leave
If it pleases you To talk
Then give yourself a start
Give yourself a start Talk to me
No need to worry, now the day is done
When there's never another
Who'll pay the bills when
We give ourselves a break? How will we spend our days
There's nothing there to lean up against
Would you rather this than anything else
Now there's no work left?
