Reminder

Travis

Celebrate, don't be late
Finish what's on your plate
Be the change you wanna see
Seek the truth, set it free

And I wanna tell you
This is a reminder
This is a reminder
This is a reminder
This is a reminder

Why does time move so fast?
Precious things never last
Figure out, don't forget
Only love, no regrets

And I gotta tell you
This is a reminder
This is a reminder
This is a reminder
This is a reminder

All of the things you never noticed
All of the lines you cling to that don't mean a thing
All of the dates that you were late for
All of the rounds you should've paid for

And I wanna tell you
This is a reminder
This is a reminder
This is a reminder
This is a reminder
This is a reminder
This is a reminder
This is a reminder
This is a reminder
