

A Jack of All Trades...

Mike Scott

This town works hard to impress

Education's meaningless.

You get the job you're given

And settle on tunnel vision.

And until I've served my time

I'll be here to toe the line. Woah

I wanna be someone I appreciate.

Woah

Just to be something that deviates.

Woah

I wanna be someone I appreciate.

Woah

It's live to work or work to live round here. Lost in a sea of ideals

Generation gaps and closed deals

There's only scraps to feed on

Three days a week is never quite enough.
