## Ja Rule

Say all that I wanna do  
Is to live my life  
But every time I turn around  
Another nigga dies  
Niggas catchin' five to ten years  
And it just ain't no useUhh, uhh, ever heard of a nigga dying twice  
My love is just to live my life  
Till the Lord decides to out my lights  
Oh I know why niggas ain't prepared to die with me  
But we all got to die one day  
Even though the life has captured me  
Money, drugs and prisons, menages with women  
Forgive me God for living for I have sinnedNow everybody wanna cage me in  
Don't make no difference 'cause I'm still here  
Breathing, can I get a witness?  
My life is misleading, hey  
Hey, 'cause anybody wanna fuck with me  
Come on just grab your heat my niggas  
Don't ever doubt your niggas  
What's life without my niggas?Talk to my niggas heart to heart  
We all live from hustlin' to ballin'  
It's crime we fall in  
Feds keep a lens peakin' through the Venetians  
But secret indictments  
Y'all niggas is reachin'  
C'mon I'm in the business to break niggas  
And anybody that want it get it hot from them INC niggas
