

# If It's Alright

## Billy Crawford

Look at you girl

Lookin' like the shorty I was with last night in my dream

Now it seems like it's really gonna be, now that you're dancing with me

When you move, I'll be up on it

Cause you now I'm feelin' like, yo

I can see it in your eyes

Gotcha thighs on my thighs

And my hands on ya hips

Girl I want to see you bounceBounce

I see you checkin' me out

Maybe I can take you to my house, to the bedroom...then I'll break you off

I can put it down...if you come around

What's it gonna be, baby girl are you leaving with meCause I can do

The things you like

So girl c'mon and spend the night

If it's alright girl, I'll hit it right

Tonight's ya night

If it's alright...if it's alrightShakin' em down

You really make me wanna go downtown..me-ow

In my dream everything I did

Made you give me every bit of your time

Time I let you know cause yo...I'm feelin' like what

You and me...meant to be...destiny

My fantasy's gonna be reality
