

We Are (feat. Nas)

Justin Bieber

Happy birthday You ain't gotta question it
You already know the answer
The truth don't make us relevant
Hurts but it's necessary
Don't want us to lose what we are
Don't want us to lose what we are
Lose what we are If it ain't broke then we don't need to fix it
Believing in what she say'll have you livid
Know they won't be happy 'til our love is over
They tryna break us up but you don't wanna get it They ain't never had your back like how I got it
They ain't never had a chance how we got it
So they can't help but to come and hate on it
They see what we got and you know they want it Don't question it
You ain't gotta question it
You already know the answer
The truth don't make us relevant
Hurts but it's necessary
Don't want us to lose what we are
Don't want us to lose what we are
Lose what we are It's like you're always looking for a problem
The raining of equations for you to solve 'em
So quick to turn nothin' right into somethin'
Get the numbers out my phone, go 'head and call 'em They ain't never had my back like you got it
They ain't never had a chance how you got it
So they can't help but to come and hate on it
They see what we got and you know they want it Don't question it
You ain't gotta question it (oh)
You already know the answer (already know the answer)
The truth don't make us relevant (the truth don't make us relevant)
Hurts but it's necessary (yeah)
Don't want us to lose what we are
Don't wanna lose, no
Don't want us to lose what we are (yeah)
Lose what we are (yeah) She texts me "How's your love life?"
And "How are you?", I said "I'm good"
They only get as close as you allow them to
We should be closer together, warm oceans, better weather
Instead of us playing games forever, she says whatever
I says whatever, who get you wetter than a half moon wearer

History sweater, serendipity when you with me
Swear you love that one thing we did that one time in that one place
Blew your mind, you got my mind going when I'm home
I'm serious girl, a much older dude, a whole forty-two
I've accomplished my goals, it's only you
You and I in that wraith, retire my pimp super-fly cape
Just my Mets cap and my badge and I'm straight, EscoDon't question it
You ain't gotta question it (oh)
You already know the answer (you already know the answer)
The truth don't make us relevant (the truth don't make us relevant)
It hurts but it's necessary (yeah)
Don't want us lose what we are
Don't wanna lose no
Don't want us lose what we are (we can't lose, nah, nah)
Lose what we are (uh)
