Radio  
Made me low and sabotaged my moving on  
Why? Every time im feeling cool  
A song just brings me back to youRadio  
Like TEVO, plays re-runs  
It's like dj vu  
When every time I feel we're through  
Someone sings me back to youRadio  
Radio  
Radio  
Makes me believe in love  
Believe in love  
Believe in love1515 we started out  
2513 we fell in love  
and 1270 we broke upI cover up when im at work  
Cause this business makes me cold  
I was all good to goFM's the smoking gun  
And it caught me on the run  
It started breaking bones you see  
Stop reminding, let me beCHORUSWe're arguing, we're throwing things  
I'm holding back profanities  
Neighbors looking over  
She's not sober  
And her friends start judging me  
Yeah, then I open my eyes  
And realize the game  
I've woken up finally  
Just 3 years laterFM's the smoking gun  
And it caught me on the run  
It started breaking bones you see  
Stop this blinding, set me free
